

BLAIRLOGIE BUGLE

Your Window on the Village and the Logie Community December 2016
Blairlogie, Cotkerse, Gogar, Manor, Powis and Witches Craig

Jamie the Westie keeps track of village life from his favourite spot in Kirklea Cottage.

Happy Christmas and a Prosperous New Year to all in the Logie Community.

Christmas Lights

The switching on of the Christmas tree lights will be 18.30 on 18th December. There will be carols, mince pies and mulled wine. All welcome.

Halloween

The Halloween evening was a great success. As well as ghostly appearances, we were also joined by Elvis and Johnny Depp...worthy company indeed. Well done to the young villagers who embraced technology and brought photos of their animals via phones and tablets.

The Burns supper is Back for 2017

The 'Alternative Burns Supper' will take place on Friday 20th January 2017. This will involve a meal, some recitals in homage to Burns, traditional as well as alternative, followed by a ceilidh. If you feel that you would like to contribute to the entertainment in any way, please contact the RR committee. Tickets are a competitive £15 each and may be purchased from the RR committee: Paula, Kate, Katanya or Una. Places are limited so first come, first served!

Email to Una at una_t_bryce@msn.com

Logie Broadband on Film

For a short film of the community broadband project click this link:

Logie Community Council

The next meeting of Logie CC will be on Tuesday 24th January 2017

The Spirit of Enterprise

An occasional item featuring businesses in the Logie Community. A previous piece covered the great job the Stevens family have done in building up the caravan site into an award winning development. This time we go to Logie Cattery run by Gwen...

Logie Villa Cattery

The Cattery is a small family-run business set in a great location right on the edge of the Logie community with stunning views of the Wallace Monument and the Ochil Hills.

Guest cats are accommodated in a new, purpose-built facility with sixteen units each is individually heated with thermostatic control and the building is fully insulated. It is designed to allow air to flow, keeping the units cool in the summer months.

For each unit there is a comfortable indoor sleeping area linked to a secure external exercise area, covered by a translucent roof providing protection against UV rays.

All in all this is a great local business based around the former Logie villa. If you have any questions regarding the cattery or your cat's stay, please do not hesitate to contact Gwen at gwen@logievillacattery.co.uk
