ORDNANCE SURVEY OF SCOTLAND.

BOOK OF REFERENCE TO THE PLAN

OF THE

PARISH OF LOGIE

(PART OF),

IN THE

COUNTY OF STIRLING,

CONTAINING 3095.050 ACRES.

COLONEL SIR HENRY JAMES, R.E., F.R.S., F.G.S., &c.,
SUPERINTENDENT OF THE ORDNANCE SURVEY.

PRINTED AT THE ORDNANCE SURVEY OFFICE, SOUTHAMPTON.

1864.

Price One Shilling and Sixpence.

ORDNANCE SURVEY OF SCOTLAND

PARISH OF LOGIE

(*Part of*)

STIRLINGSHIRE

INDEX TO THE SHEETS

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [/] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500 and 6 inches to a mile:—

County Names		Hundreds or Wards	
Parishes.....		Townships	
Extra Parochial		Division of Townships	
Antiquities			

The descriptions of the boundaries are shown by the following initials:—

Centre of Stream		Centre of Fence	
Centre of Road.....		Top of Cop	
Side of Stream or Drain ..		Centre of Wall.....	
Root of Hedge.....		Defaced	
Face of Wall		Track of Stream	
Undefined		Und.	

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

TABLE

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1·2500 and 6 inches to a mile:—

County Names		Hundreds or Wards	
Parishes.....		Townships	
Extra Parochial		Division of Townships	
Antiquities		 ROMAN	
		 Druidical or Saxon	
		 Norman or Subsequent	

The descriptions of the boundaries are shown by the following initials:—

Centre of Stream		Centre of Fence	
Centre of Road.....		Top of Cop	
Side of Stream or Drain		Centre of Wall.....	
Root of Hedge.....		Defaced	
Face of Wall		Track of Stream	
Undefined			

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

ORDNANCE SURVEY OF SCOTLAND

P A R I S H O F L O C I E B U C H A N

A B E R D E E N S H I R E

I N D E X T O T H E S H E E T S

Published on the Scale of $\frac{1}{2500}$ or 25344 Inches to a Mile

Scale of this Index One Inch to a Mile

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25.344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1.0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (/) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31.4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial.....	E	Division of Townships	T
Antiquities	ROMAN Druidical or Saxon Norman or Subsequent		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream.....	T.S.
Undefined.....			Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25.344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1.0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (/) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31.4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names		Hundreds or Wards	
Parishes		Townships	
Extra Parochial.....		Division of Townships	
Antiquities	ROMAN		
Druidical or Saxon			
Norman or Subsequent			

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream		Centre of Fence	
Centre of Road		Top of Cop	
Side of Stream or Drain ..		Centre of Wall	
Root of Hedge		Defaead	
Face of Wall		Track of Stream.....	
Undefined.....			

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

Examples—

	Acres.				Acres.		
	633	.357	4		527	.013	4

C

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25.344 inches to a mile, or 3.157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1.0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (/) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31.4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities		ROMAN	
		Druidical or Saxon	
		Norman or Subsequent	

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	<i>C.S.</i>	Centre of Fence	<i>C.F.</i>
Centre of Road	<i>C.R.</i>	Top of Cop	<i>T.C.</i>
Side of Stream or Drain	<i>S.S. or S.D.</i>	Centre of Wall	<i>C.W.</i>
Root of Hedge	<i>R.H.</i>	Defaced	<i>Def.</i>
Face of Wall	<i>F.W.</i>	Track of Stream	<i>T.S.</i>
Undefined.....			<i>Und.</i>

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25.344 inches to a mile, or 3.157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1.0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book;

The Braces (*f*) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31.4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities		ROMAN Druidical or Saxon Norman or Subsequent	

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	<i>C.S.</i>	Centre of Fence	<i>C.F.</i>
Centre of Road	<i>C.R.</i>	Top of Cop	<i>T.C.</i>
Side of Stream or Drain ..	<i>S.S.</i> or <i>S.D.</i>	Centre of Wall	<i>C.W.</i>
Root of Hedge	<i>R.H.</i>	Defaced	<i>Def.</i>
Face of Wall	<i>F.W.</i>	Track of Stream.....	<i>T.S.</i>
Undefined.....			<i>Und.</i>

Where a change occurs in the boundaries, the symbol [*o—o*] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF SCOTLAND.

BOOK OF REFERENCE TO THE PLAN

OF THE

PARISH OF LOGIERAIT,

CONTAINING 39253·001 ACRES,

IN THE

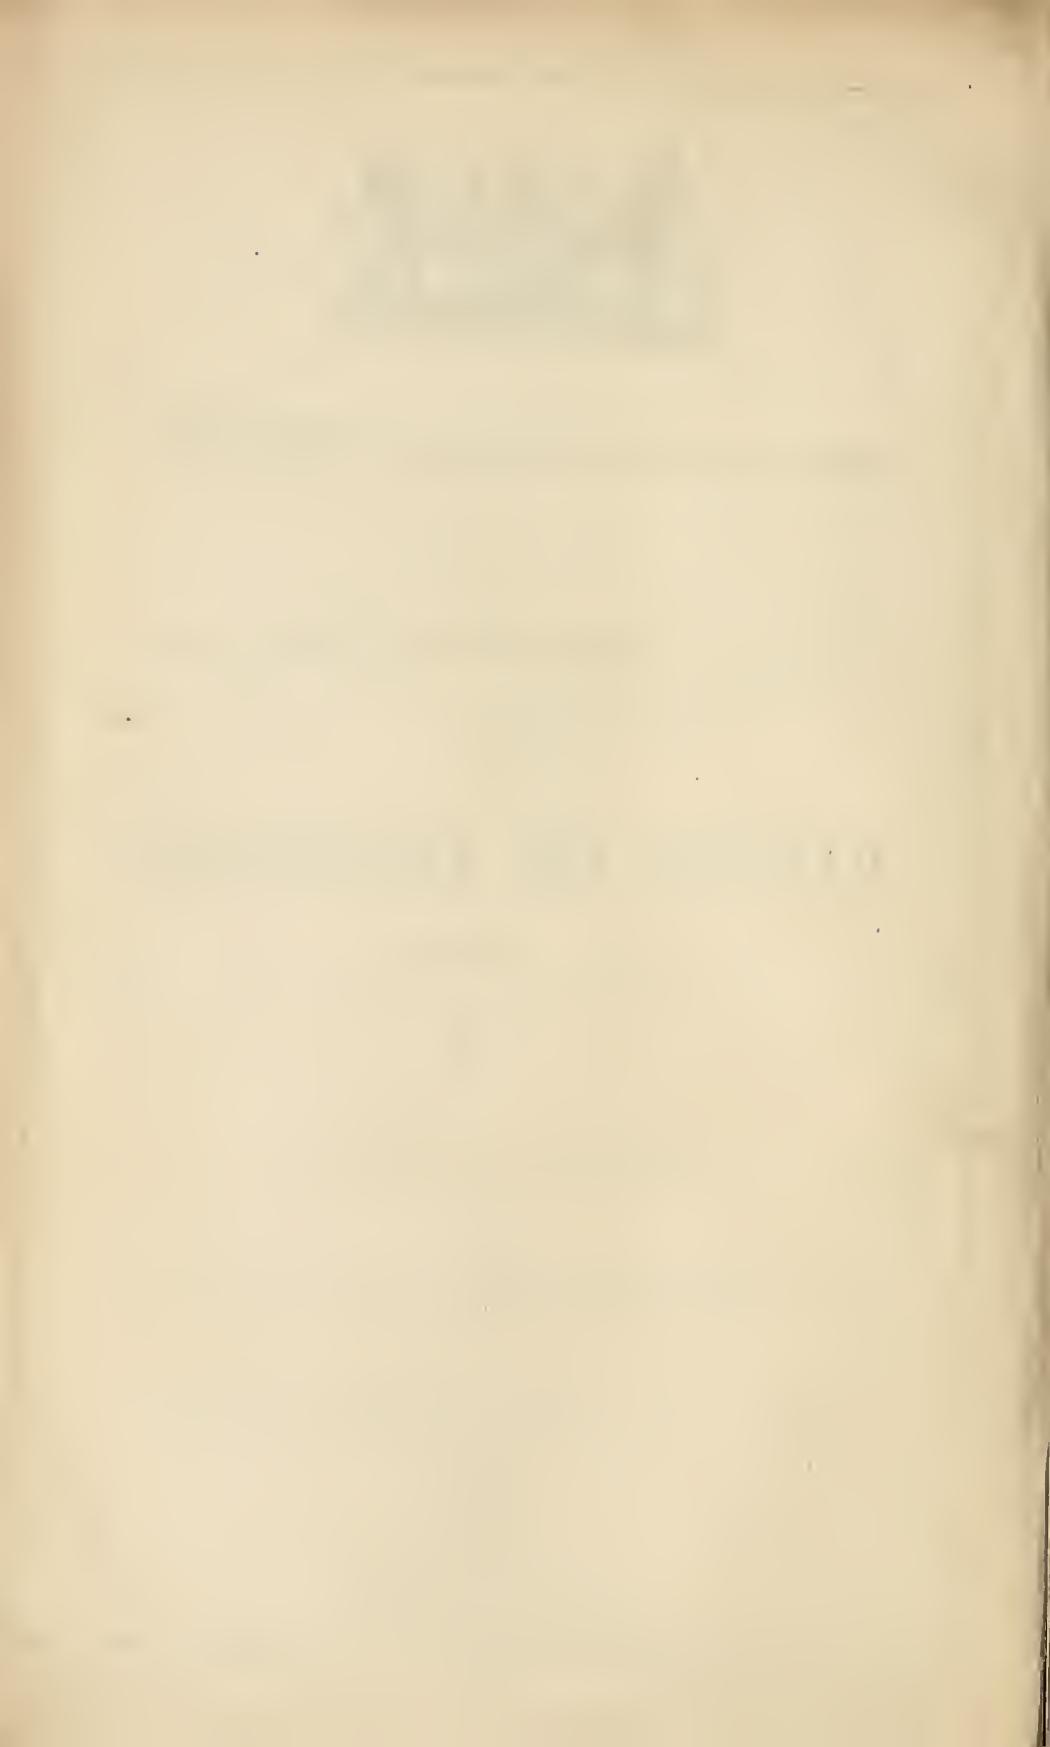

COUNTY OF PERTH.

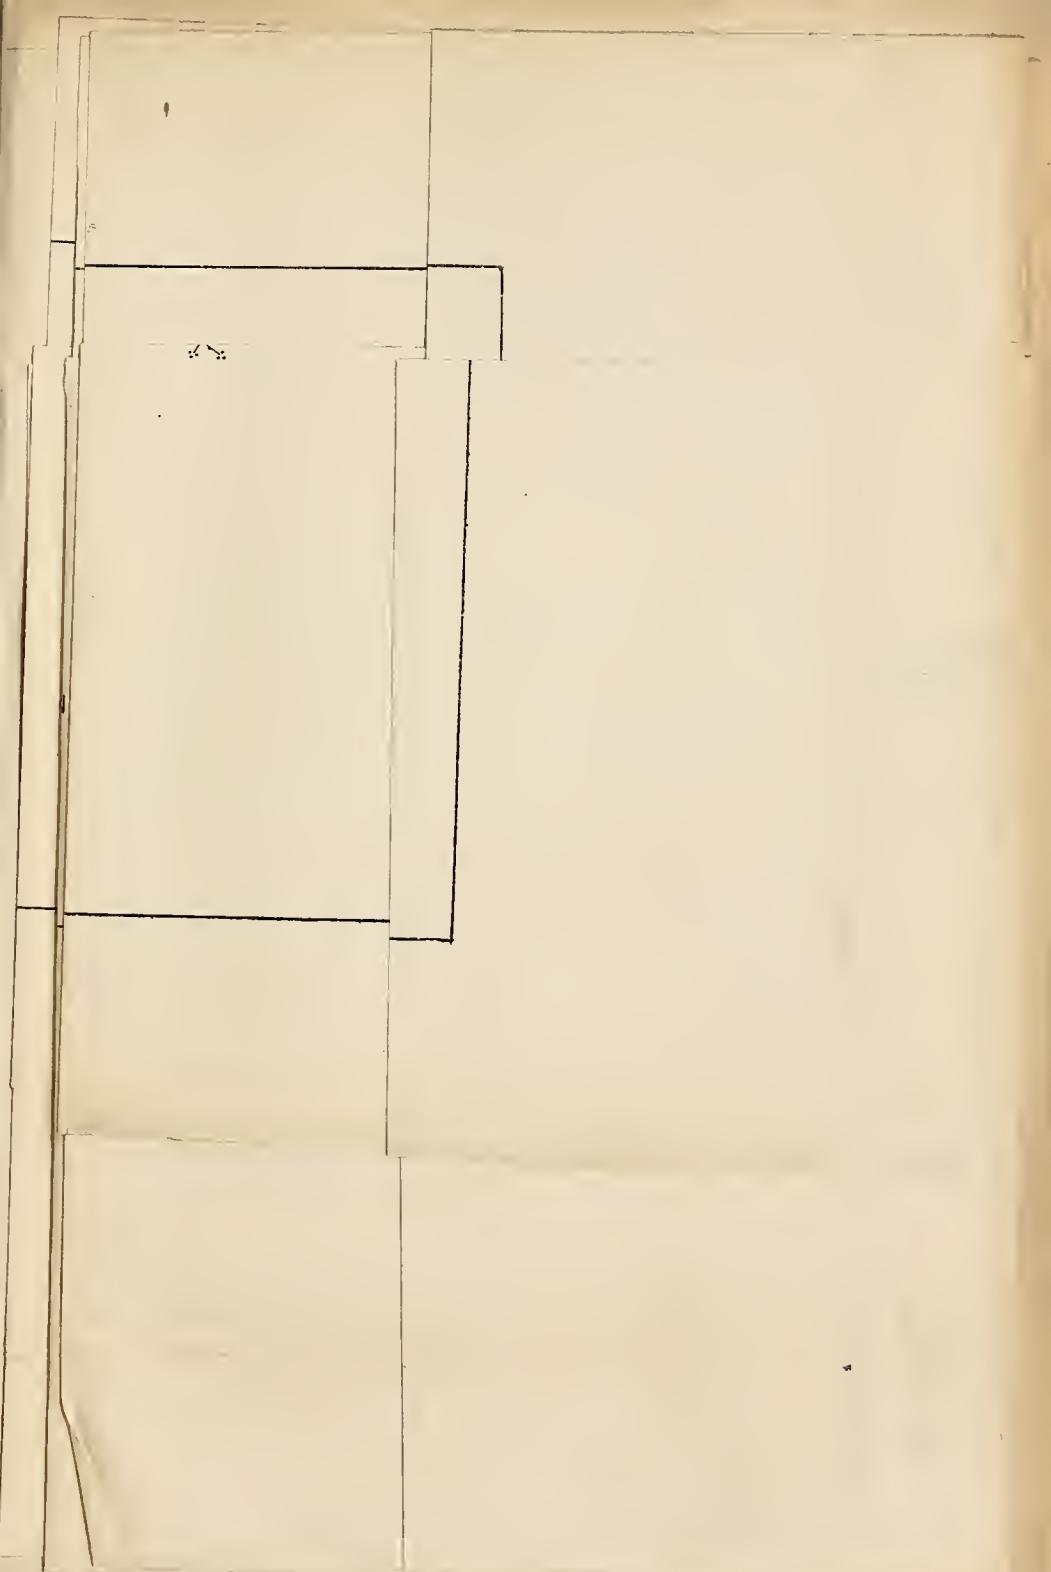

COLONEL SIR HENRY JAMES, R.E., F.R.S., F.G.S., &c.,
SUPERINTENDENT OF THE ORDNANCE SURVEY.

PRINTED AT THE ORDNANCE SURVEY OFFICE, SOUTHAMPTON.

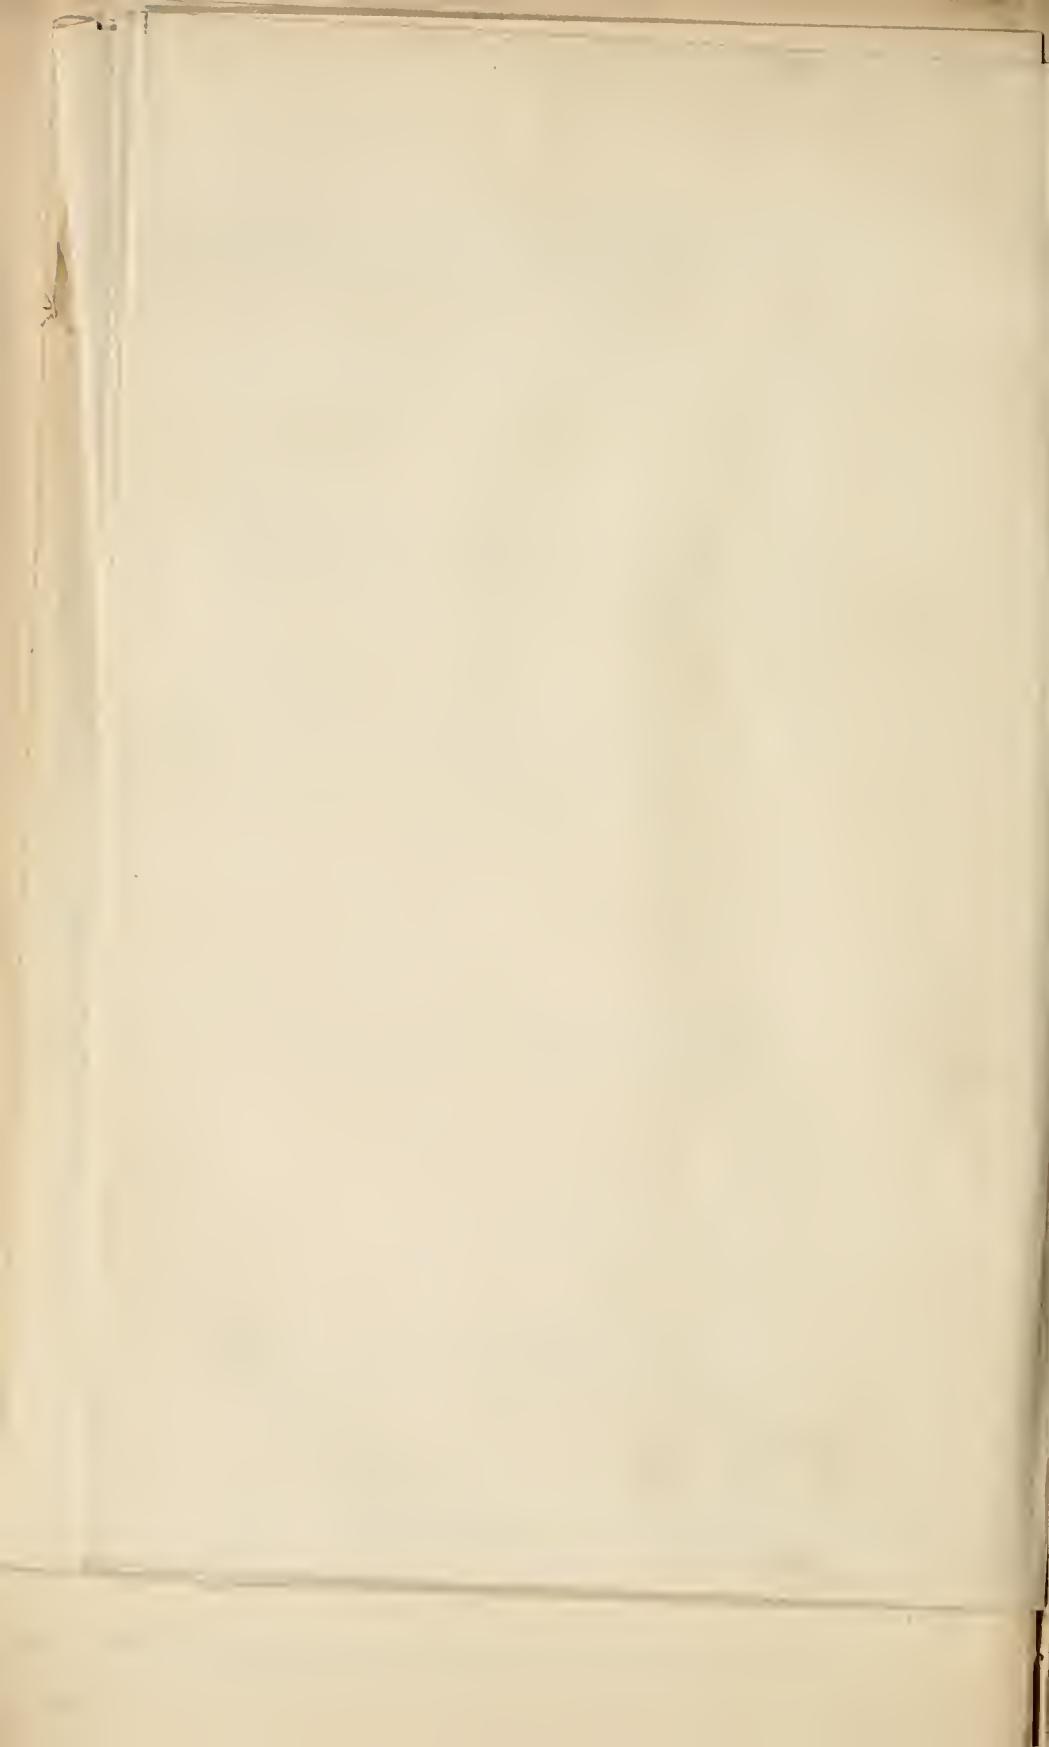

1867.

Price Three Shillings.

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [f] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500 and 6 inches to a mile:—

County Names		Hundreds or Wards	
Parishes.....		Townships	
Extra Parochial		Division of Townships	
Antiquities	 		

The descriptions of the boundaries are shown by the following initials:—

Centre of Stream	<i>C.S.</i>	Centre of Fence	<i>C.F.</i>
Centre of Road.....	<i>C.R.</i>	Top of Cop	<i>T.C.</i>
Side of Stream or Drain	<i>S.S. or S.D.</i>	Centre of Wall.....	<i>C.W.</i>
Root of Hedge.....	<i>R.H.</i>	Defaced	<i>Def.</i>
Face of Wall	<i>F.W.</i>	Track of Stream	<i>T.S.</i>
Undefined			<i>Und.</i>

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

Where a change occurs in the boundaries, the symbol [—] is used to show the part at which the change takes place.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [ʃ] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1·2500 and 6 inches to a mile:—

County Names	ꝝ	Hundreds or Wards	W
Parishes.....	ꝝ	Townships	T
Extra Parochial	E	Division of Townships	T'
Antiquities		ROMAN Druidical or Saxon Norman or Subsequent	

The descriptions of the boundaries are shown by the following initials:—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road.....	C.R.	Top of Cop	T.C.
Side of Stream or Drain ..	S.S. or S.D.	Centre of Wall.....	C.W.
Root of Hedge.....	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined		Und.	

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1·2500 and 6 inches to a mile:—

County Names	C	Hundreds or Wards	W
Parishes.....	P	Townships.....	T
Extra Parochial	E	Division of Townships	T
Antiquities	ROMAN Druidical or Saxon Norman or Subsequent		

The descriptions of the boundaries are shown by the following initials:—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road.....	C.R.	Top of Cop	T.C.
Side of Stream or Drain ..	S.S. or S.D.	Centre of Wall.....	C.W.
Root of Hedge.....	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined			Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

TABLE

ORDNANCE SURVEY OF SCOTLAND

P A R I S H O F L O N M A Y

A B E R D E E N S H I R E

I N D E X T O T H E S H E E T S

Published on the Scale of $\frac{1}{2500}$ or 2534 Inches to a Mile

Scale of this Index One Inch to a Mile.

[III]

St. Combs

16

Published in 24 Sheets at $\frac{5}{d}$ each : with 1 Book of Areas at $\frac{2}{d}$.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25.344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1.0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Brackets () on the plans are to indicate that the spaces so bracketed are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31.4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities		ROMAN	
		Druidical or Saxon	
		Norman or Subsequent	

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	<i>C.S.</i>	Centre of Fence	<i>C.F.</i>
Centre of Road	<i>C.R.</i>	Top of Cop	<i>T.C.</i>
Side of Stream or Drain ..	<i>S.S. or S.D.</i>	Centre of Wall	<i>C.W.</i>
Root of Hedge	<i>R.H.</i>	Defaced	<i>Def.</i>
Fence of Wall	<i>F.W.</i>	Track of Stream	<i>T.S.</i>
Undefined.....			<i>Und.</i>

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

I N D E X T O T H E S H E E T S

Published on the Scale of $\frac{1}{300}$ or $25\frac{1}{4}$ Inches to a Mile.

Scale of this Index One Inch to a Mile.

Published in 27 Sheets at $\frac{2}{6}$ each, with 1 Book of Areas at $\frac{2}{6}$.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25.344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1.0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (f) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31.4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	ROMAN Druidical or Saxon Norman or Subsequent		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined.....			Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25.344 inches to a mile, or 3.157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1.0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (ſ) on the plans are to indicate that the spaces so bracketed are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31.4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scale of 1-2500, and 6 inches to a mile :—

County Names		Hundreds or Wards	
Parishes		Townships	
Extra Parochial		Division of Townships	
Antiquities			

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream		Centre of Fenee	
Centre of Road		Top of Cop	
Side of Stream or Drain ...		Centre of Wall	
Root of Hedge		Defaced	
Face of Wall		Traek of Stream.....	
Undefined			

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Rods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF SCOTLAND

PARISH OF LUMPHANAN

ABERDEENSHIRE

INDEX TO THE SHEETS

Published on the Scale of $\frac{1}{2500}$ or 25344 Inches to a Mile

Scale of this Index One Inch to a Mile.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25.344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1.0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (/) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31.4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial.....	E	Division of Townships	T
Antiquities			<p style="text-align: center;">ROMAN Druidical or Saxon Norman or Subsequent</p>

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ..	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream.....	T.S.
Undefined.....			Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Rods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

Examples—	Acres.	Acres.
	$633 \cdot 357$ 4 — $1 \cdot 428$ 40	$527 \cdot 013$ 4 — $\cdot 052$ 40
A. R. P. 633 1 17	— 17·120	A. R. P. 527 0 2 — 2·080

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [ʃ] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1·2500 and 6 inches to a mile:—

County Names	◎	Hundreds or Wards	W
Parishes.....	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	ROMAN Druidical or Saxon Norman or Subsequent		

The descriptions of the boundaries are shown by the following initials:—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road.....	C.R.	Top of Cop	T.C.
Side of Stream or Drain ..	S.S. or S.D.	Centre of Wall.....	C.W.
Root of Hedge.....	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined		Und.	

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [/] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1·2500 and 6 inches to a mile:—

County Names	©	Hundreds or Wards	W
Parishes.....	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	ROMAN Druidical or Saxon Scandinavian or Subsequent		

The descriptions of the boundaries are shown by the following initials:—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined		Und.	

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [ʃ] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1·2500 and 6 inches to a mile:—

County Names		Hundreds or Wards	
Parishes.....		Townships	
Extra Parochial		Division of Townships	
Antiquities			

The descriptions of the boundaries are shown by the following initials:—

Centre of Stream		Centre of Fence	
Centre of Road.....		Top of Cop	
Side of Stream or Drain ..		Centre of Wall.....	
Root of Hedge.....		Defaced	
Face of Wall		Track of Stream	
Undefined			

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

EXPLANATORY REMARKS.

ORDNANCE SURVEY OF SCOTLAND

P A R I S H O F L U N N A S T I N G

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25.344 inches to a mile, or 3.157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1.0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus — 31.4.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	H
Parishes, Ancient or Mother.....	P	Civil Parishes or Townships	T
Extra Parochial	E	Division of Townships	T
Municipal Wards.....			W
Antiquities	ROMAN Druidical or Saxon Norman or Subsequent		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream.....	T.S.
Undefined.....			Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

S.

Where a change occurs in the boundaries, the symbol [o—o] is used to show
the part at which the change takes place.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (/) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—
31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile:—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial.....	E	Division of Townships	T
Antiquities	ROMAN Druidical or Saxon Saxons or Subsequent		

The descriptions of the boundaries are shewn by the following initials:—

Centre of Stream	C. S.	Centre of Fenee	C. F.
Centre of Road	C. R.	Top of Cop	T. C.
Side of Stream or Drain S. S. or S. D.		Centre of Wall	C. W.
Root of Hedge	R. H.	Defaced	Def.
Faee of Wall	F. W.	Track of Stream	T. S.
Undefined			Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to shew the part at which the change takes place.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25.344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1.0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (f) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31.4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial.....	E	Division of Townships	T
Antiquities	ROMAN Brutal or Saxon Norman or Subsequent		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream.....	T.S. Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF SCOTLAND.

BOOK OF REFERENCE TO THE PLAN

OF THE

PARISH OF MAINS & STRATHMARTINE,

IN THE

COUNTY OF FORFAR,

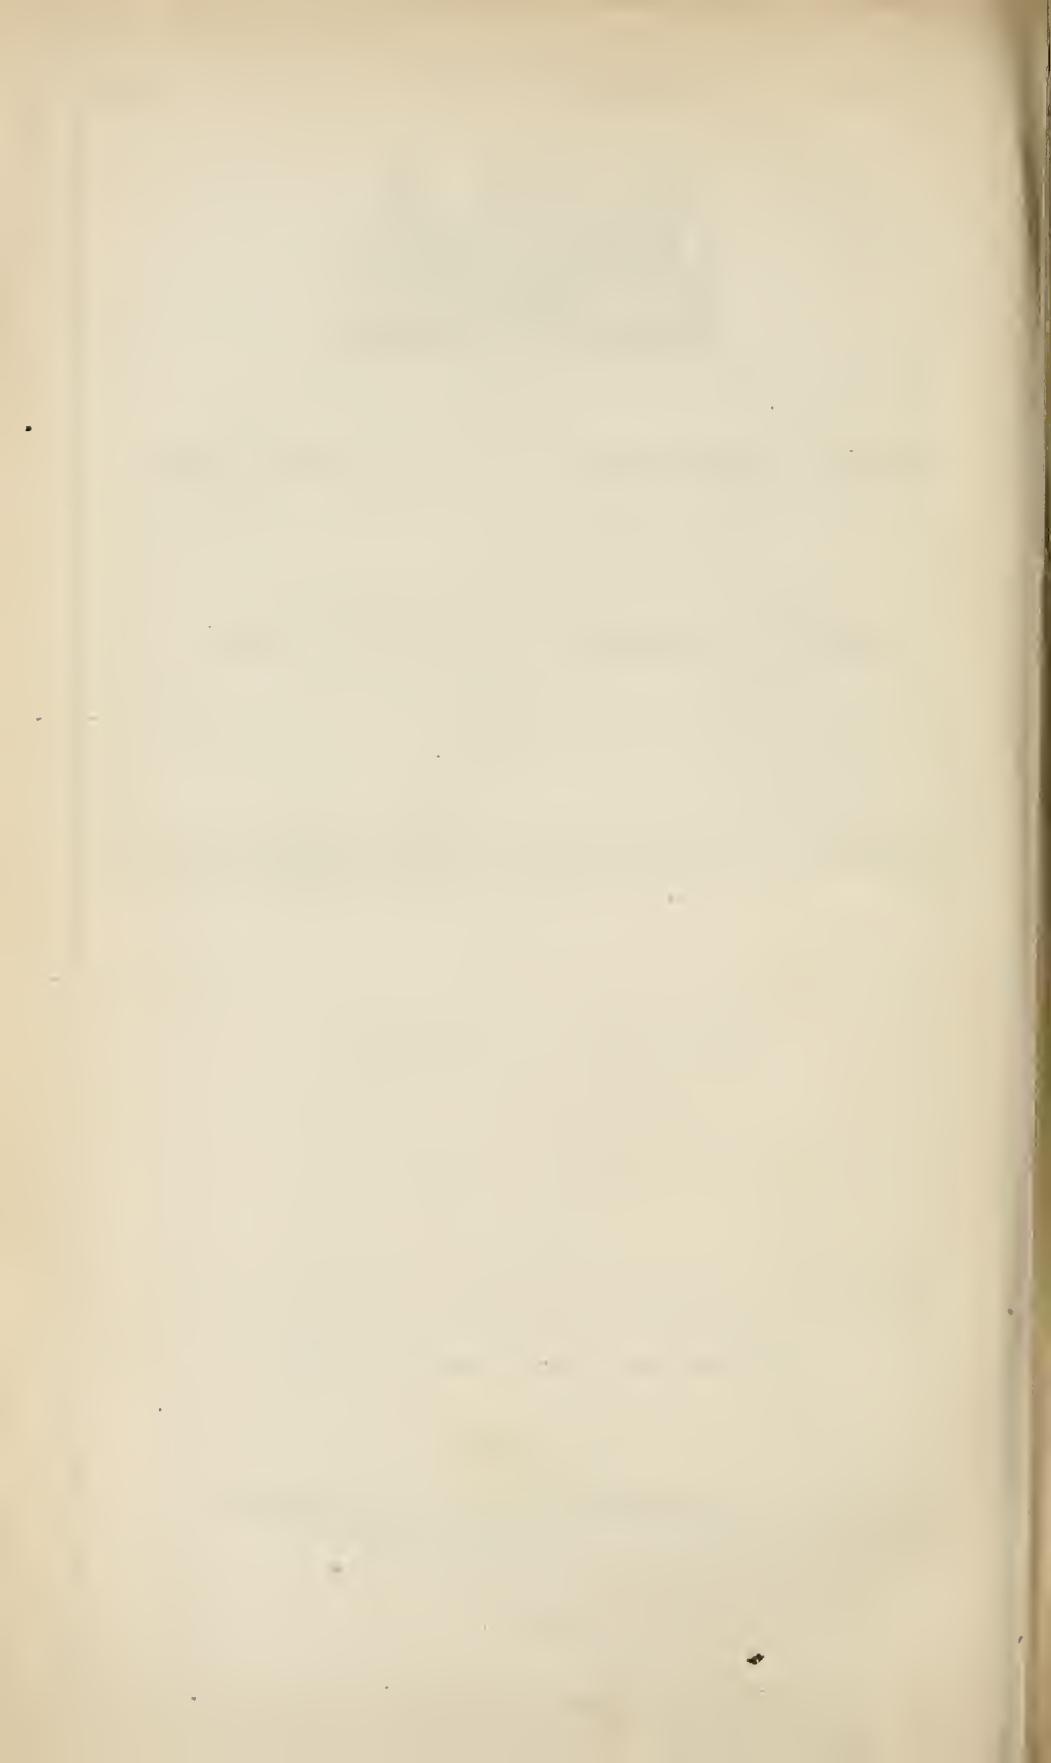

CONTAINING 6320·970 ACRES.

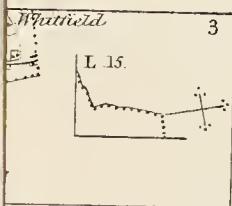

COLONEL SIR HENRY JAMES, R.E., F.R.S., F.G.S., &c.,

SUPERINTENDENT OF THE ORDNANCE SURVEY.

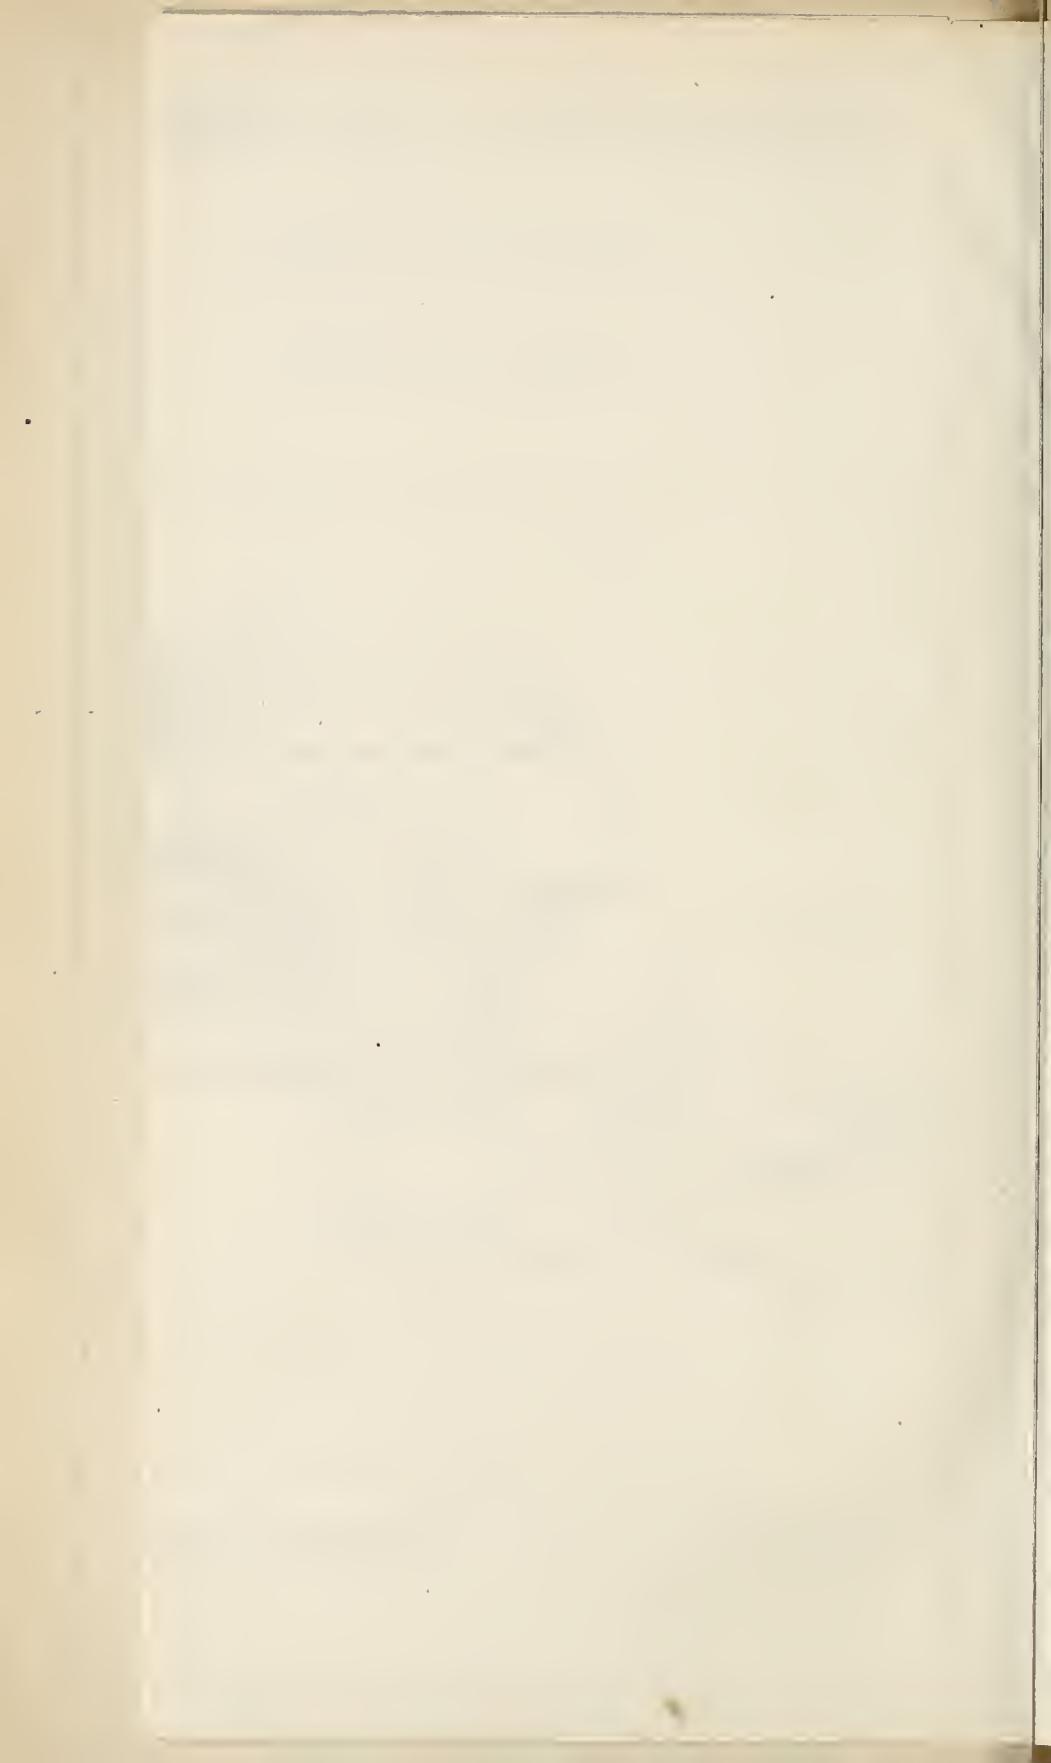

PRINTED AT THE ORDNANCE SURVEY OFFICE, SOUTHAMPTON.

1861.

cott, R.E.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (/) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—
31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

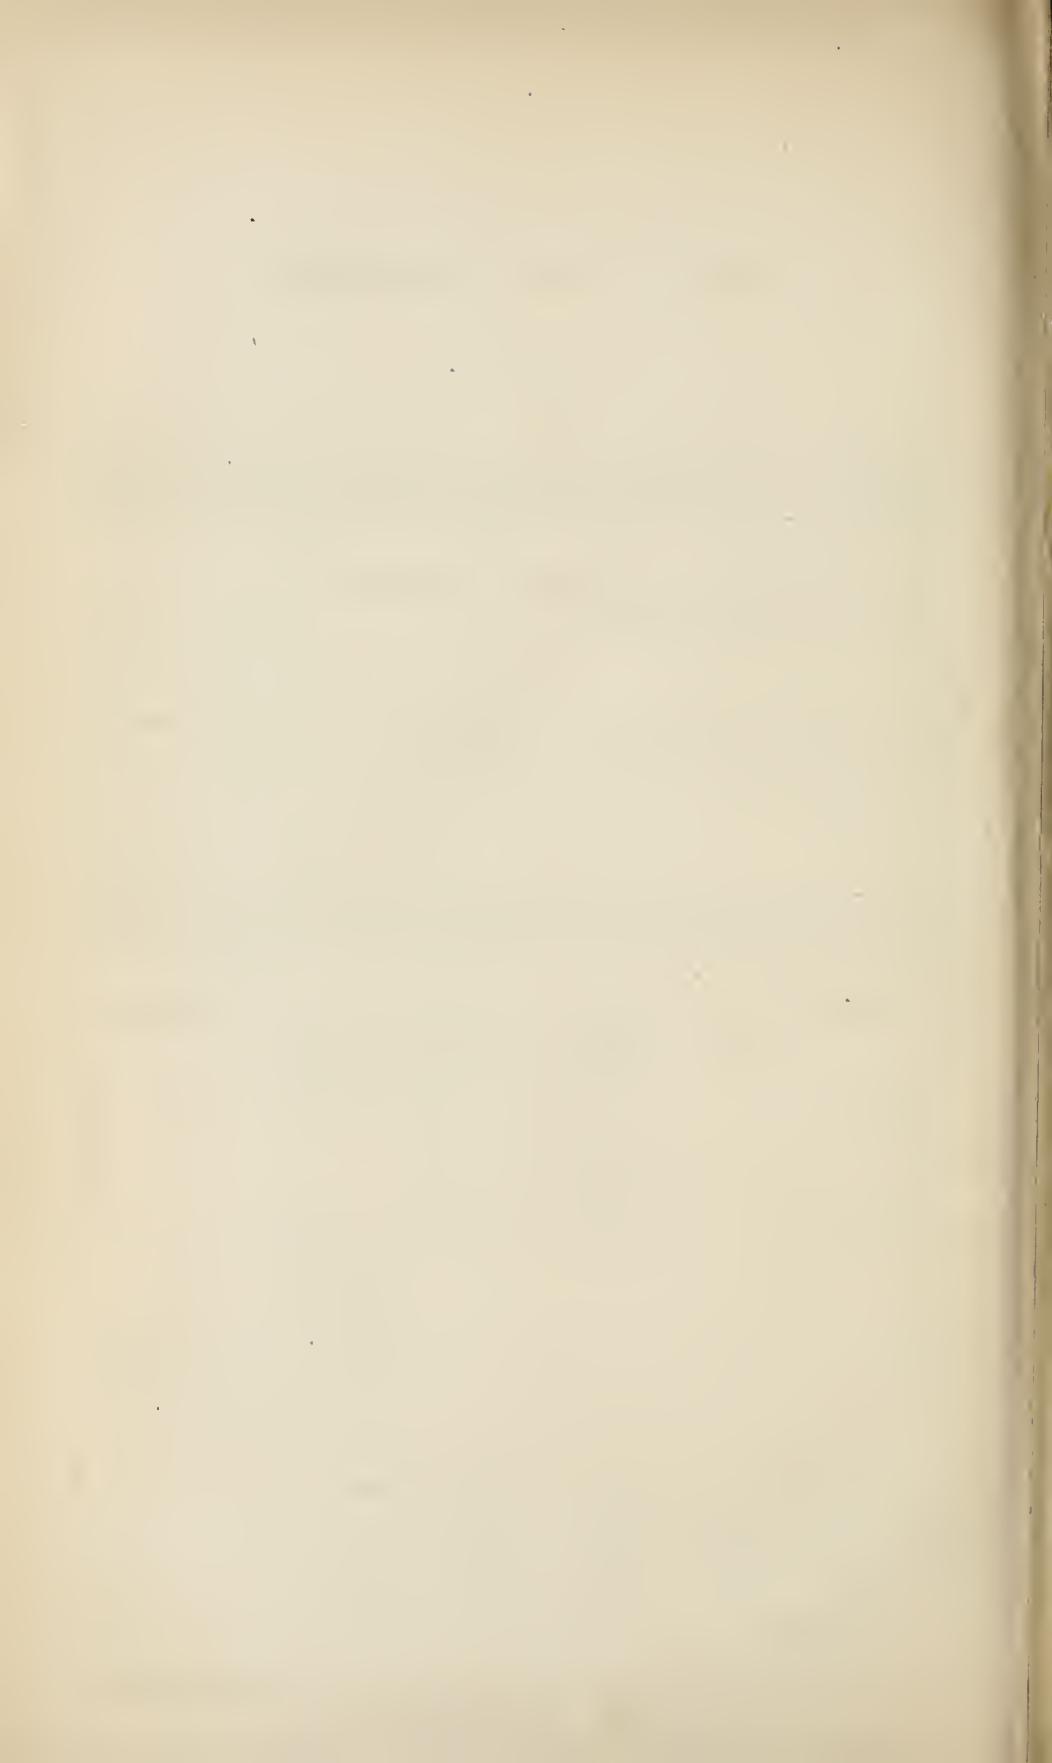

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile:—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities		ROMAN Druidical or Saxon <i>Norman or Subsequent</i>	

The descriptions of the boundaries are shewn by the following initials:—

Centre of Stream	C. S.	Centre of Fence	C. F.
Centre of Road	C. R.	Top of Cop	T. C.
Side of Stream or Drain S. S. or S. D.		Centre of Wall	C. W.
Root of Hedge	R. H.	Defaced	Def.
Face of Wall	F. W.	Track of Stream	T. S.
Undefined			Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to shew the part at which the change takes place.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (*f*) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—
31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

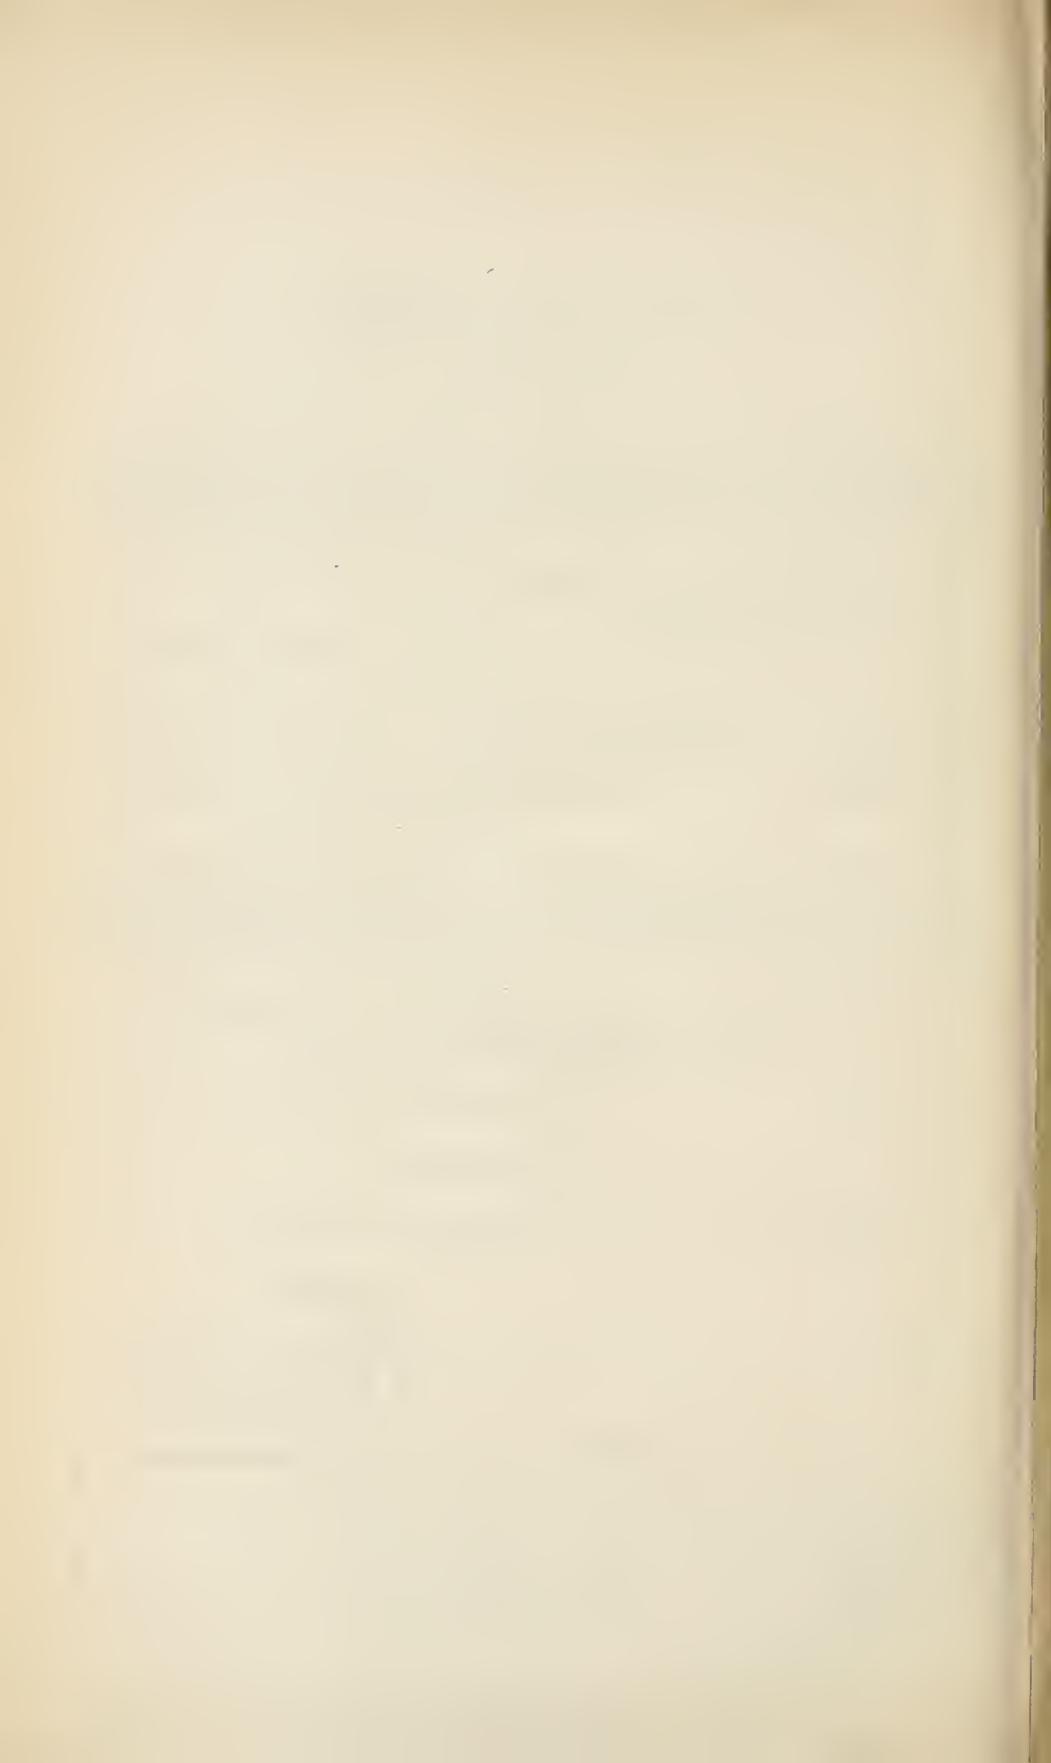

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile:—

County Names		Hundreds or Wards	
Parishes		Townships	
Extra Parochial		Division of Townships	
Antiquities	 <i>or Subsequent</i>		

The descriptions of the boundaries are shewn by the following initials:—

Centre of Stream		Centre of Fence	
Centre of Road		Top of Cop	
Side of Stream or Drain <i>S. S.</i> or <i>S. D.</i>		Centre of Wall	
Root of Hedge		Defaced	
Face of Wall		Track of Stream	
Undefined			

Where a change occurs in the boundaries, the symbol [o—o] is used to shew the part at which the change takes place.

ORDNANCE SURVEY OF SCOTLAND

PARISH OF MARNOCH

BANFFSHIRE

INDEX TO THE SHEETS

Published on the Scale of 2500 or 25:344 Inches to a Mile

Scale of this Index One Inch to a Mile

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25.344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1.0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (*f*) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31.4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial.....	E	Division of Townships	T
ROMAN			
Antiquities	<i>Druidical or Saxon Scottish or Subsequent</i>		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...S.S. or S.D.		Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream.....	T.S.
Undefined.....			Und.

Where a change occurs in the boundaries, the symbol [○—○] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

Examples—	A. 633 1 17	R. 357 4 40	P. 17·120	A. 527 0 2	R. 013 4 40	P. ·052 ·0080

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [/] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500 and 6 inches to a mile:—

County Names	C	Hundreds or Wards	W
Parishes.....	P	Townships.....	T
Extra Parochial	E	Division of Townships	T
Antiquities	ROMAN Druidical or Saxon Celtic or Subsequent		

The descriptions of the boundaries are shown by the following initials:—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road.....	C.R.	Top of Cop	T.C.
Side of Stream or Drain	S.S. or S.D.	Centre of Wall.....	C.W.
Root of Hedge.....	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined		Und.	

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

ORDNANCE SURVEY OF SCOTLAND.

BOOK OF REFERENCE TO THE PLAN

OF THE

PARISH OF MARYHILL,

IN THE

COUNTY OF LANARK,

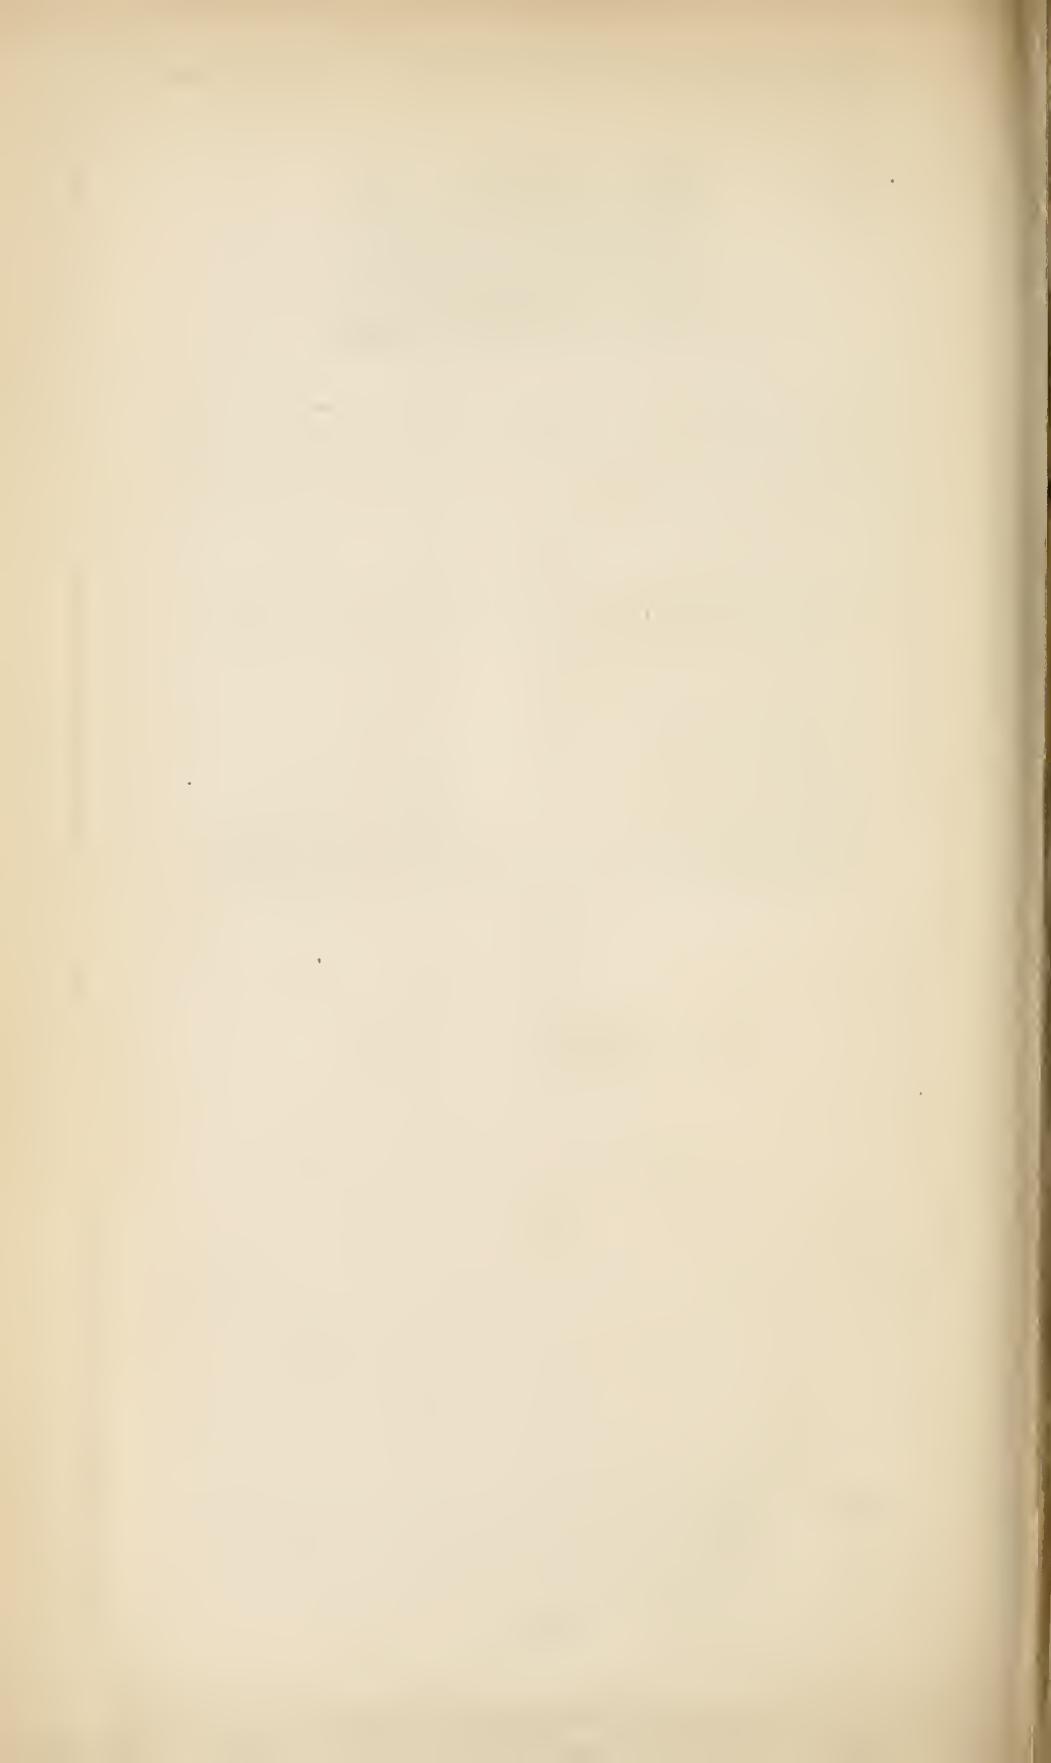

CONTAINING 4522.583 ACRES.

COLONEL SIR HENRY JAMES, R.E., F.R.S., F.G.S., &c.,

SUPERINTENDENT OF THE ORDNANCE SURVEY.

PRINTED AT THE ORDNANCE SURVEY OFFICE, SOUTHAMPTON.

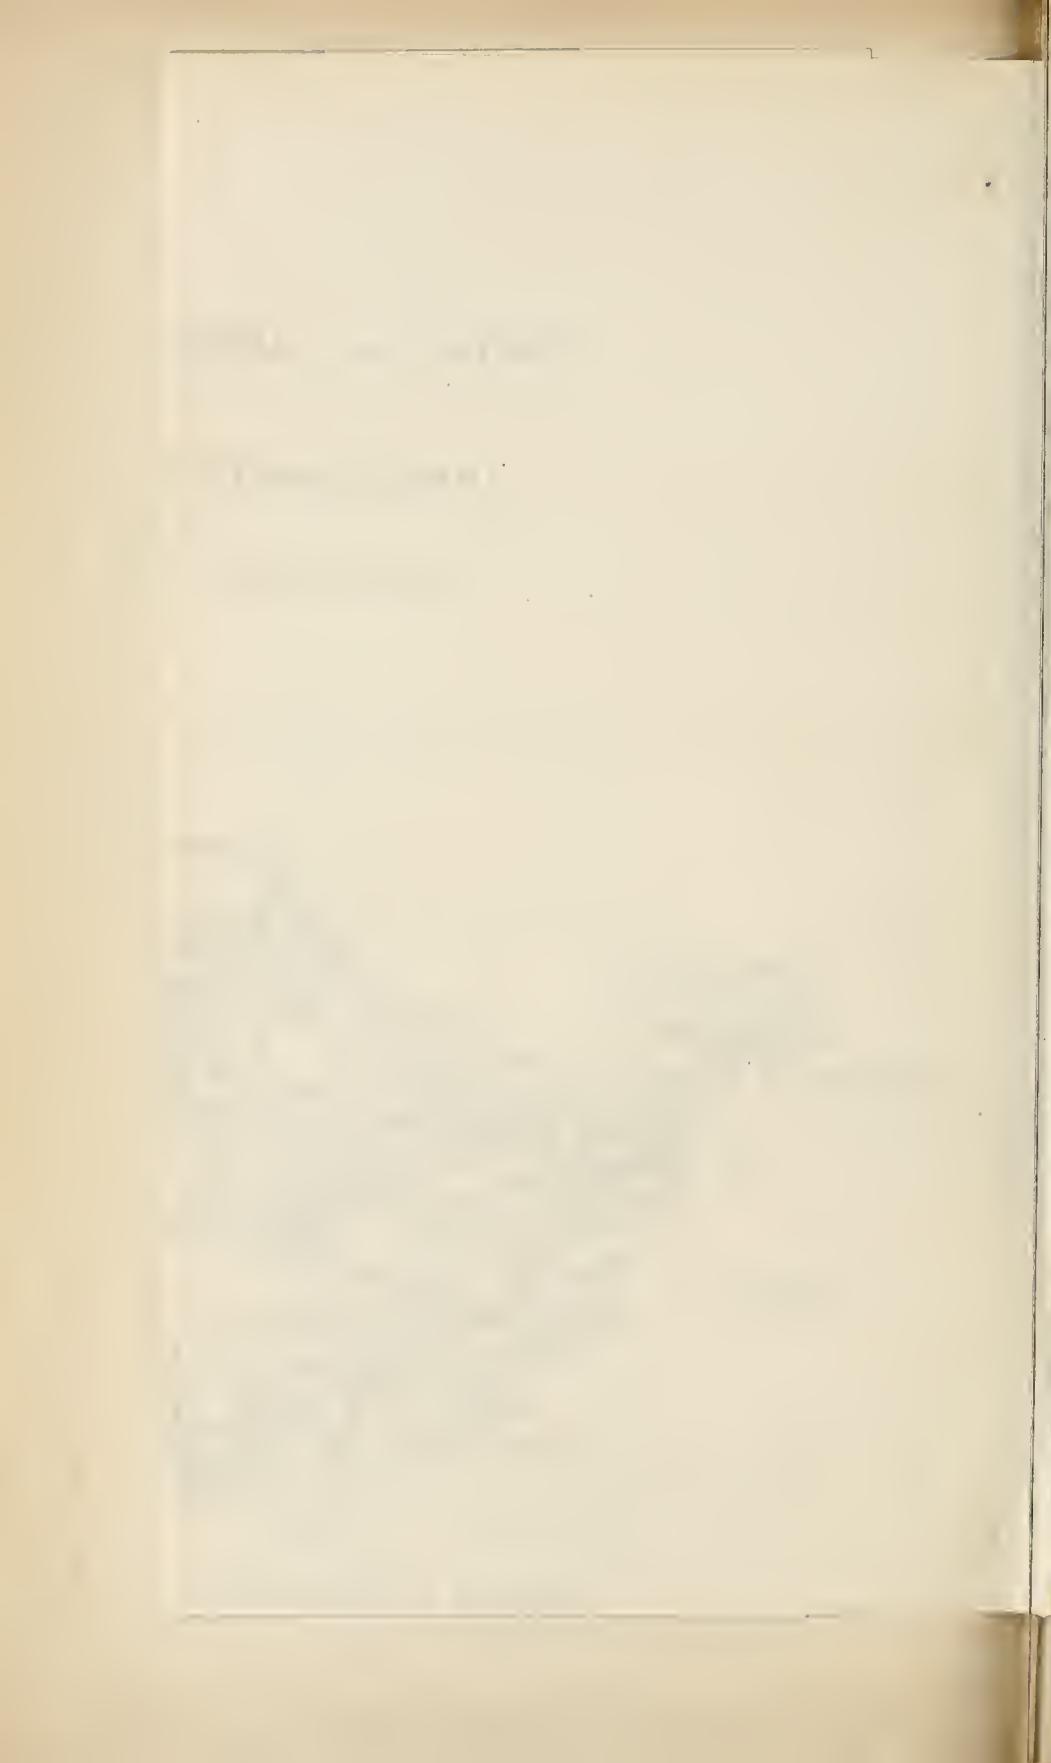

1861.

DUMBAR

Undefined Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to shew the part at which the change takes place.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (/) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—
31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

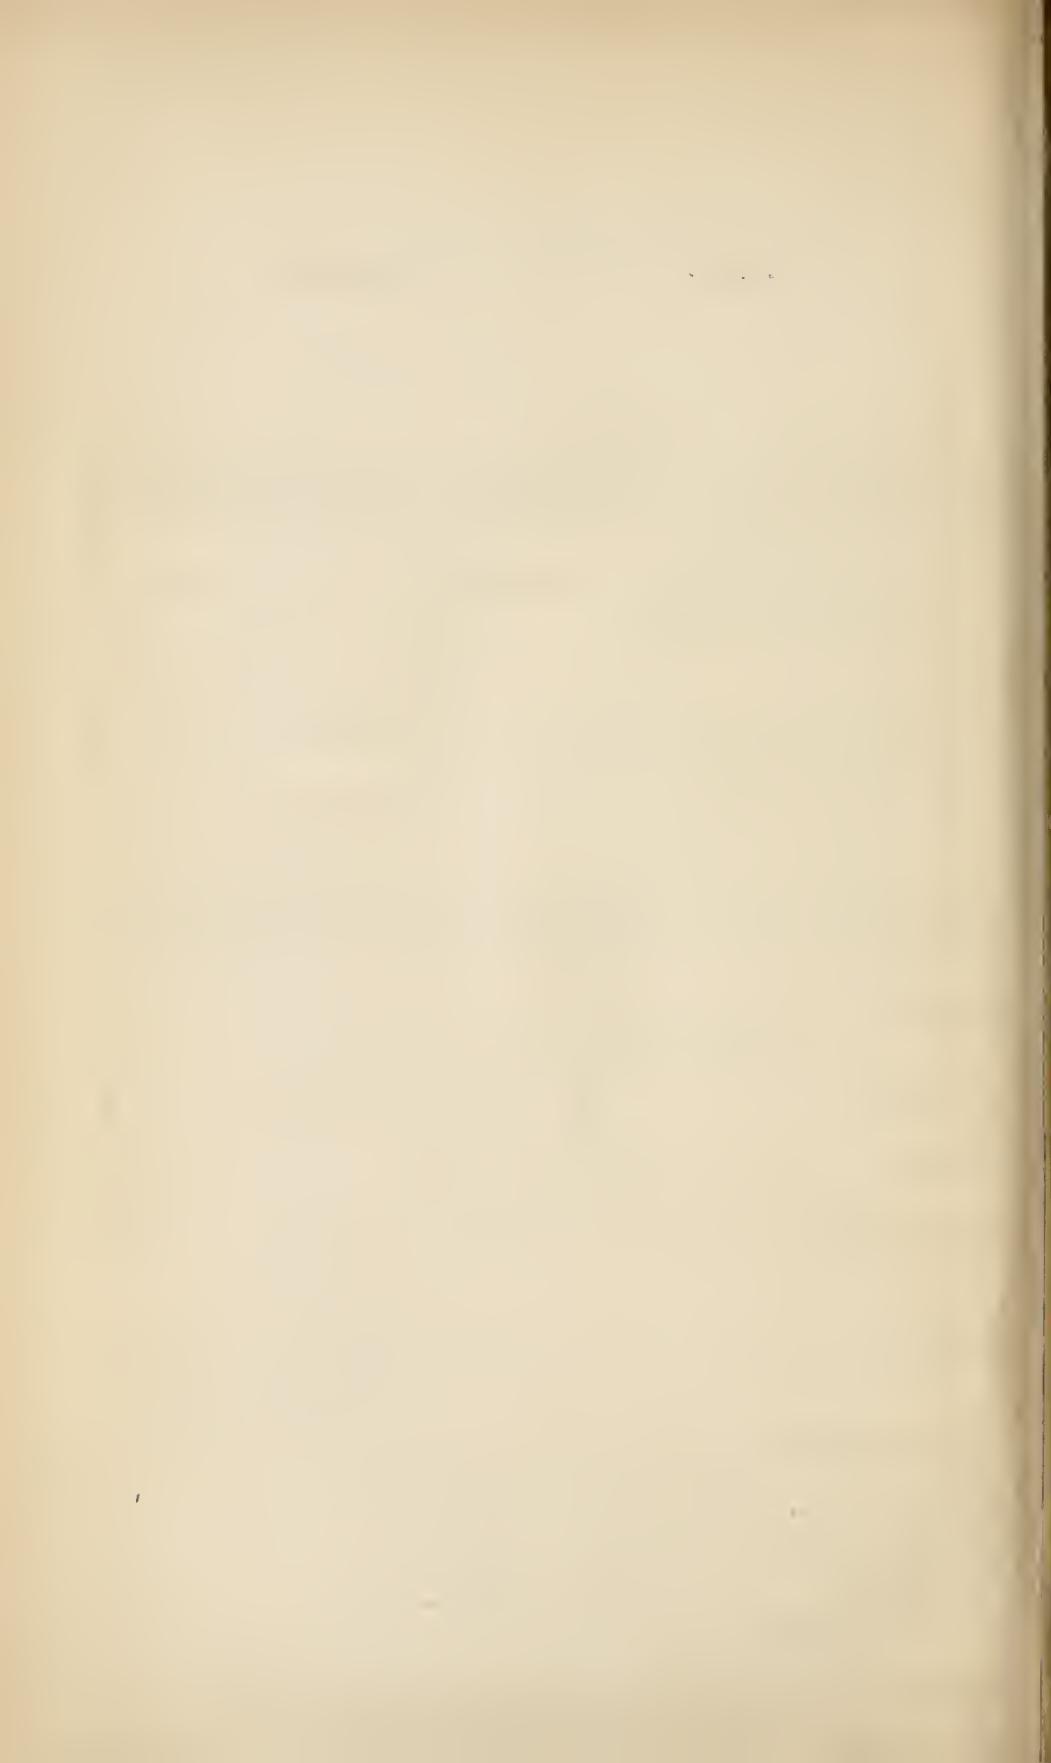

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile:—

County Names	◎	Hundreds or Wards	W
Parishes	¶	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	{ ROMAN Druidical or Saxon Viking or Subsequent		

The descriptions of the boundaries are shewn by the following initials:—

Centre of Stream	C. S.	Centre of Fence	C. F.
Centre of Road	C. R.	Top of Cop	T. C.
Side of Stream or Drain S. S. or S. D.		Centre of Wall	C. W.
Root of Hedge	R. H.	Defaced	Def.
Face of Wall	F. W.	Track of Stream	T. S.
Undefined			Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to shew the part at which the change takes place.

ORDNANCE SURVEY OF SCOTLAND.

BOOK OF REFERENCE TO THE PLAN

OF THE

PARISH OF MARYKIRK,

IN THE

COUNTY OF KINCARDINE,

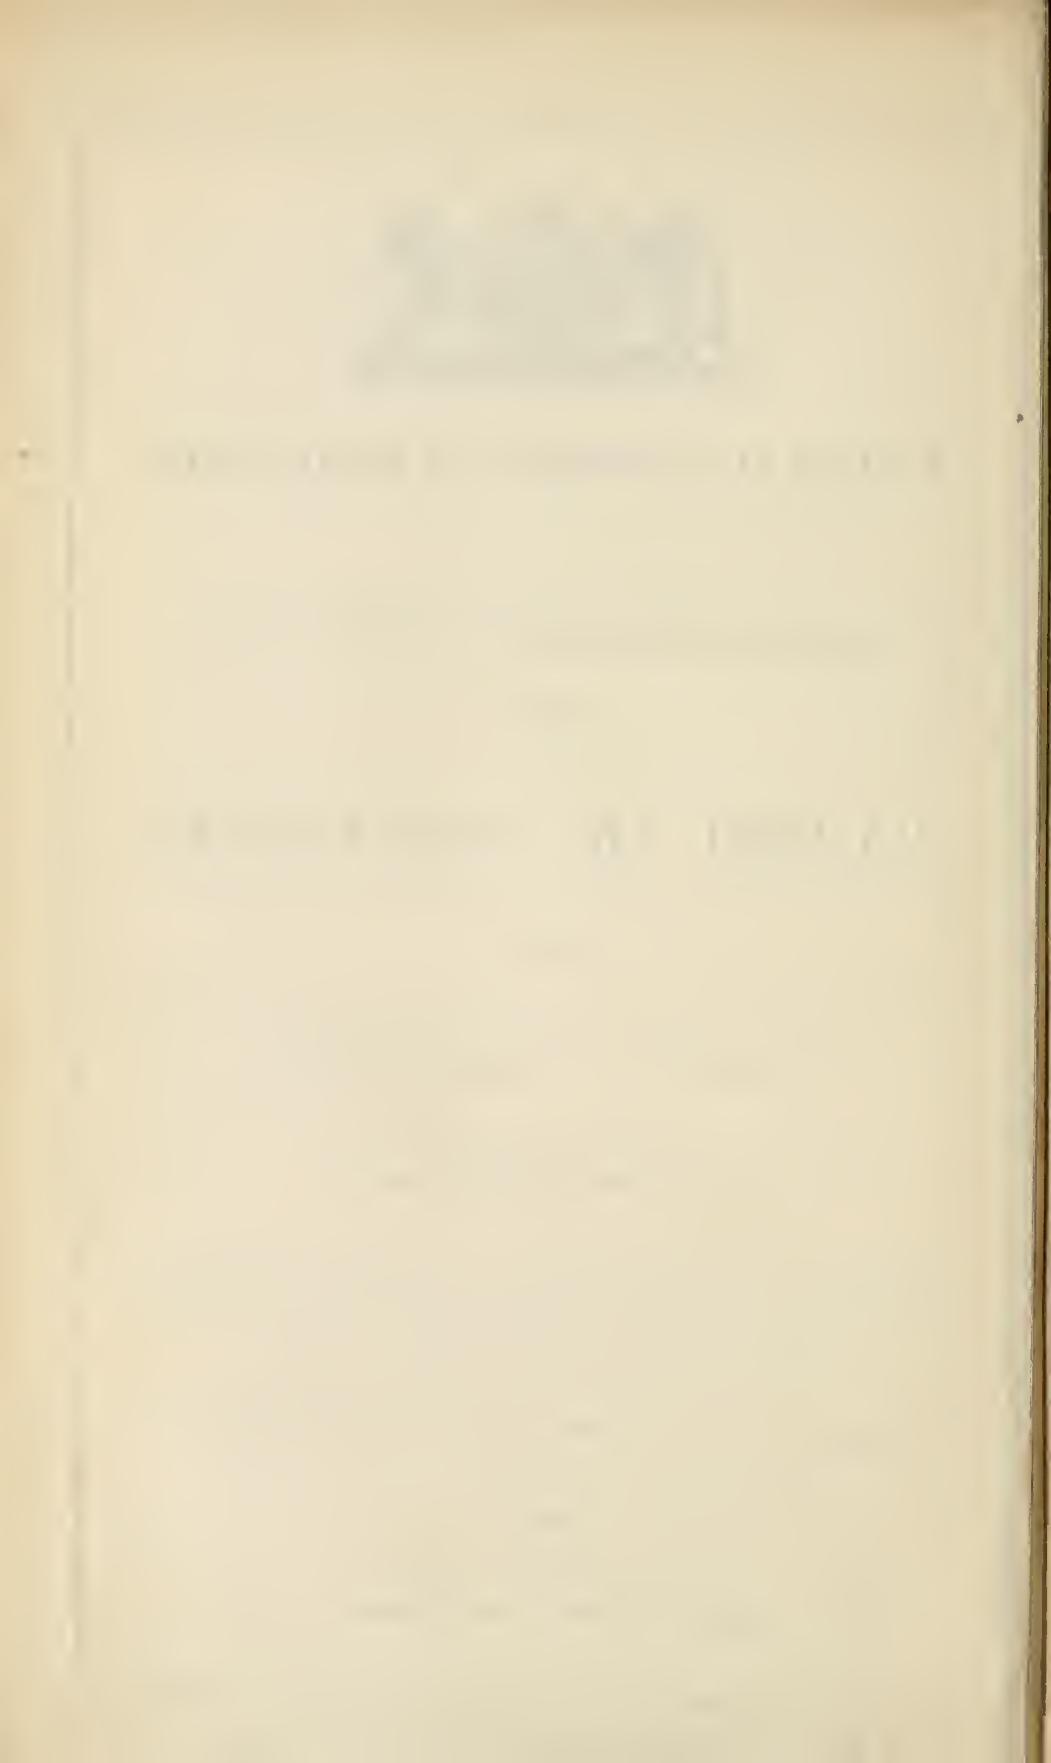

CONTAINING 9912.927 ACRES.

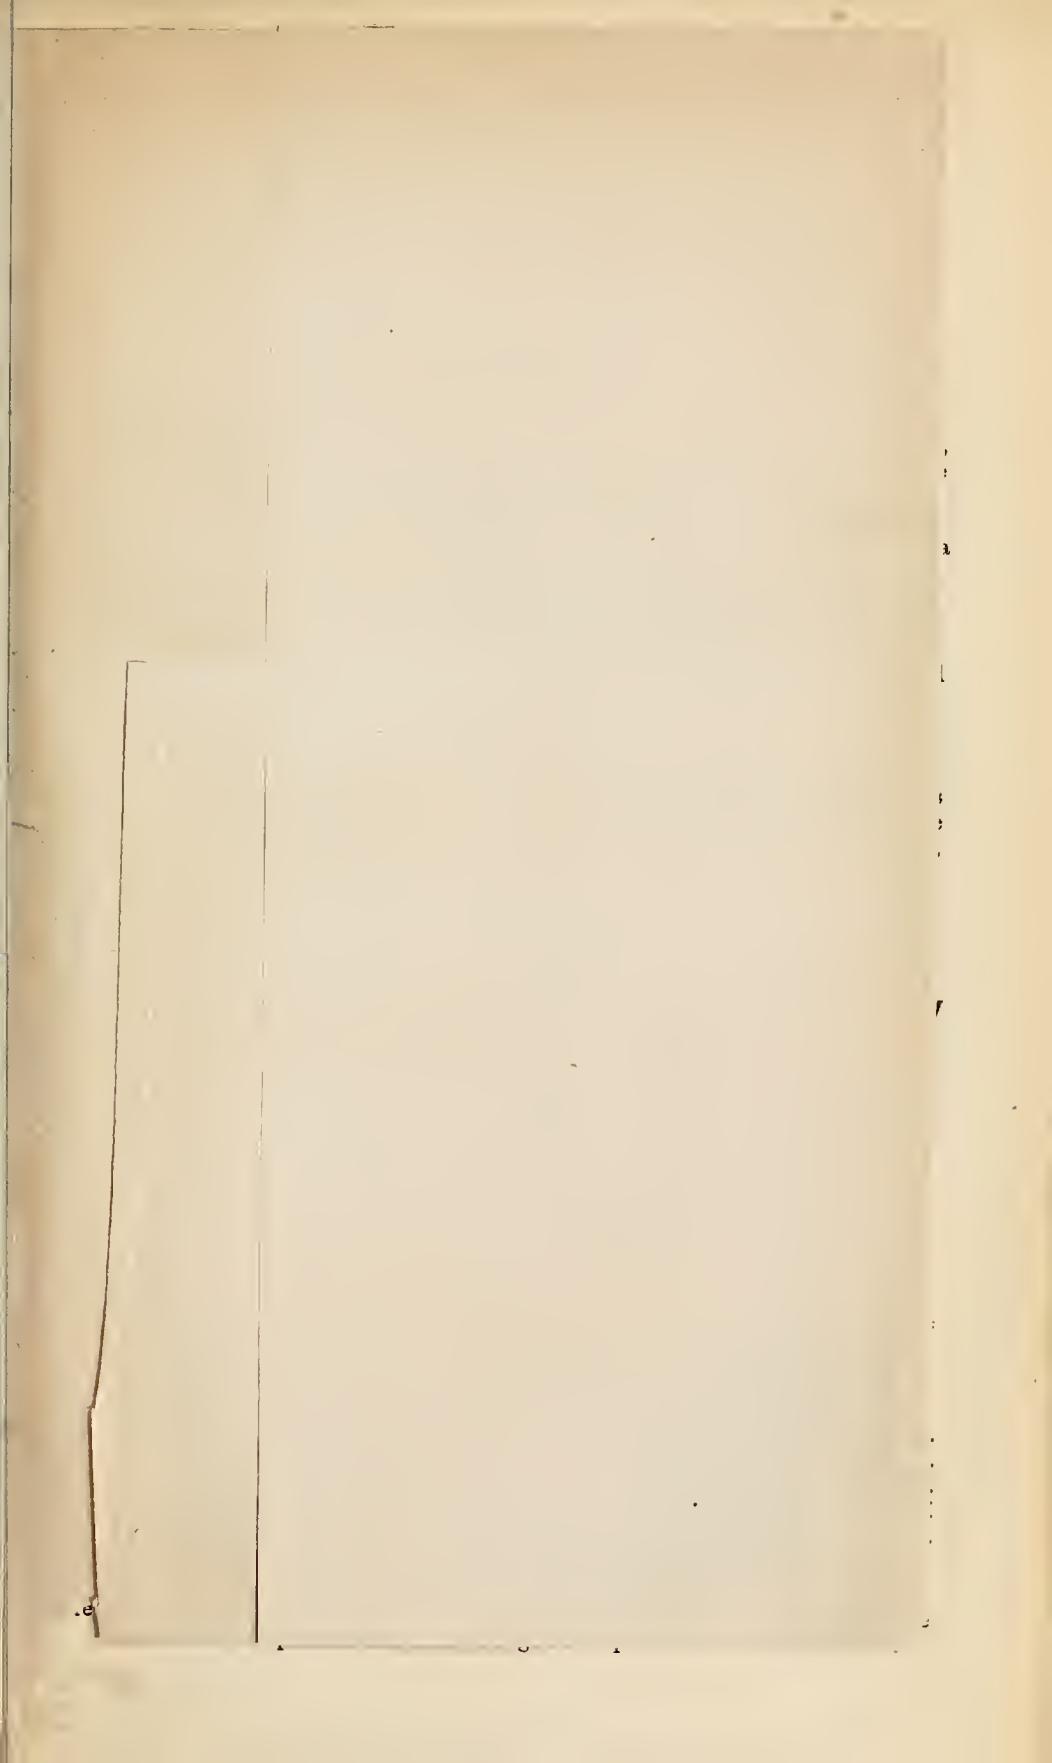

COLONEL SIR HENRY JAMES, R.E., F.R.S., F.G.S., &c.,
SUPERINTENDENT OF THE ORDNANCE SURVEY.

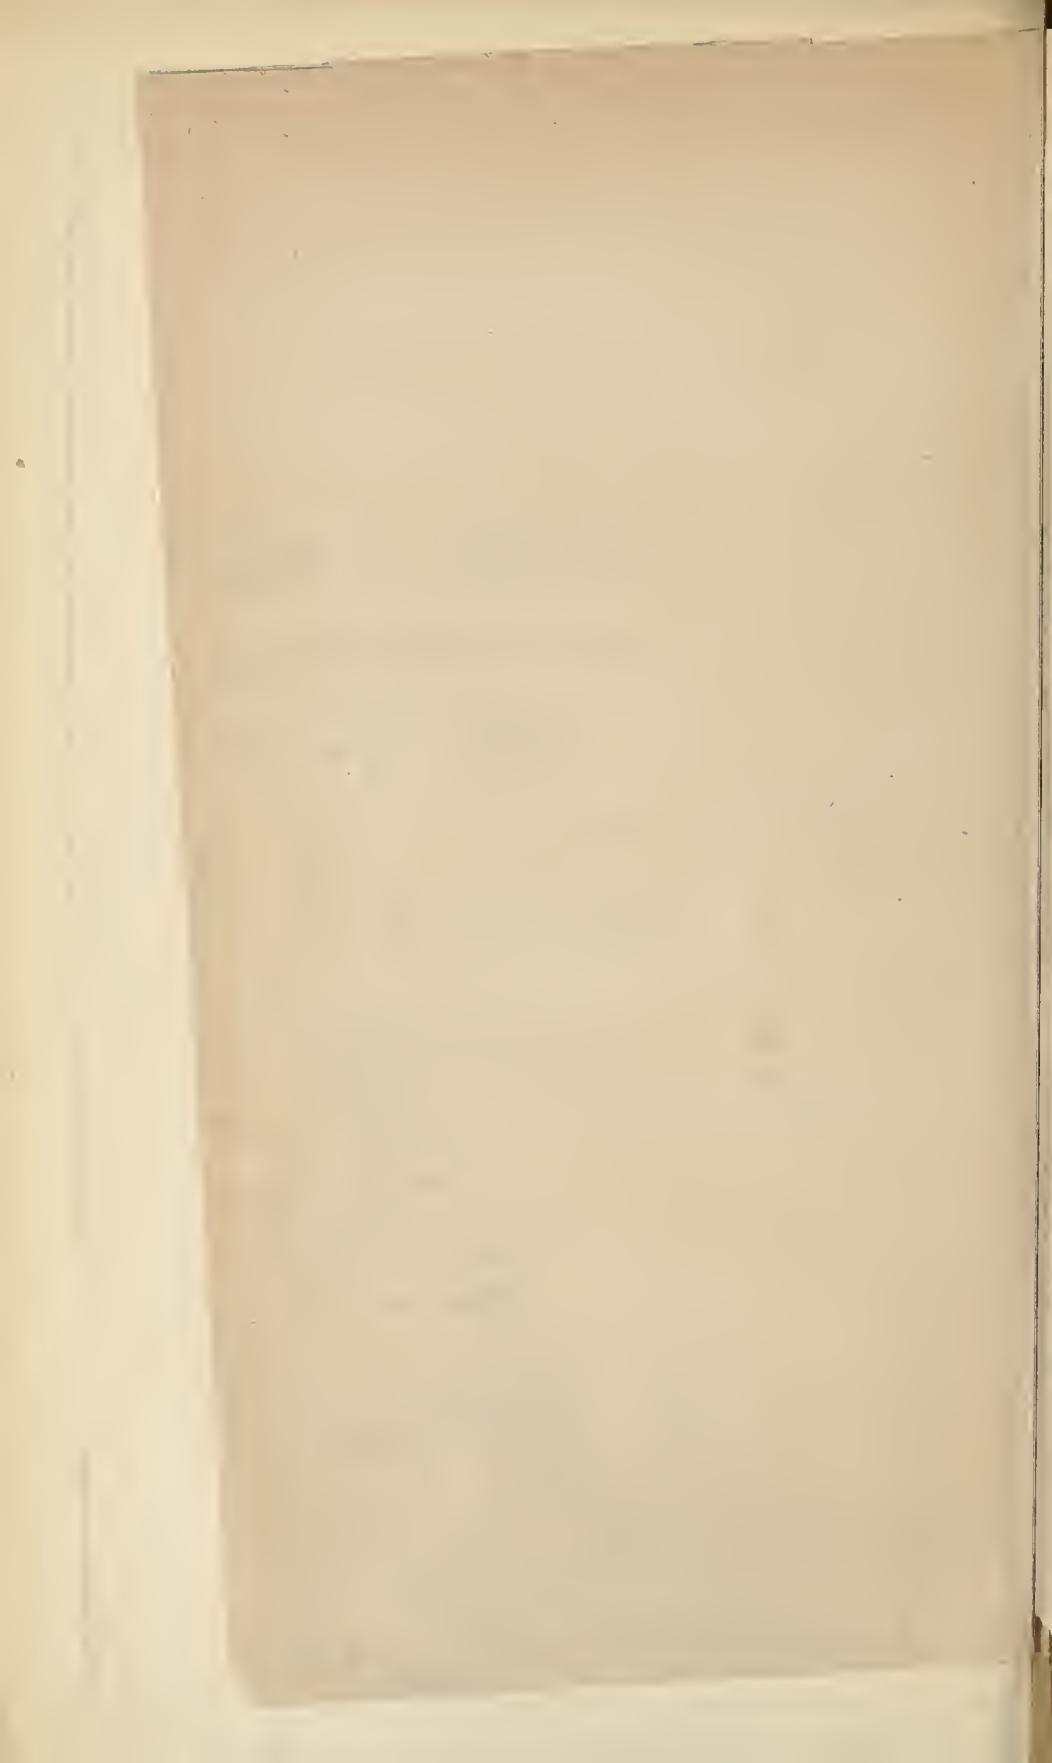

PRINTED AT THE ORDNANCE SURVEY OFFICE, SOUTHAMPTON.

1864.

Price Two Shilling and Sixpence.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, & Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1·2500 and 6 inches to a mile:—

County Names	◎	Hundreds or Wards	W
Parishes.....	P	Townships	T
Extra Parochial	E	Division of Townships	T
Antiquities	ROMAN Druidical or Saxon Norman or Subsequent		

The descriptions of the boundaries are shown by the following initials:—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road.....	C.R.	Top of Cop	T.C.
Edge of Stream or Drain ..	S.S. or S.D.	Centre of Wall.....	C.W.
Foot of Hedge.....	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined			Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

TABLE

ORDNANCE SURVEY OF SCOTLAND.

BOOK OF REFERENCE TO THE PLAN

OF THE

PARISH OF MARYTON,

IN THE

COUNTY OF FORFAR,

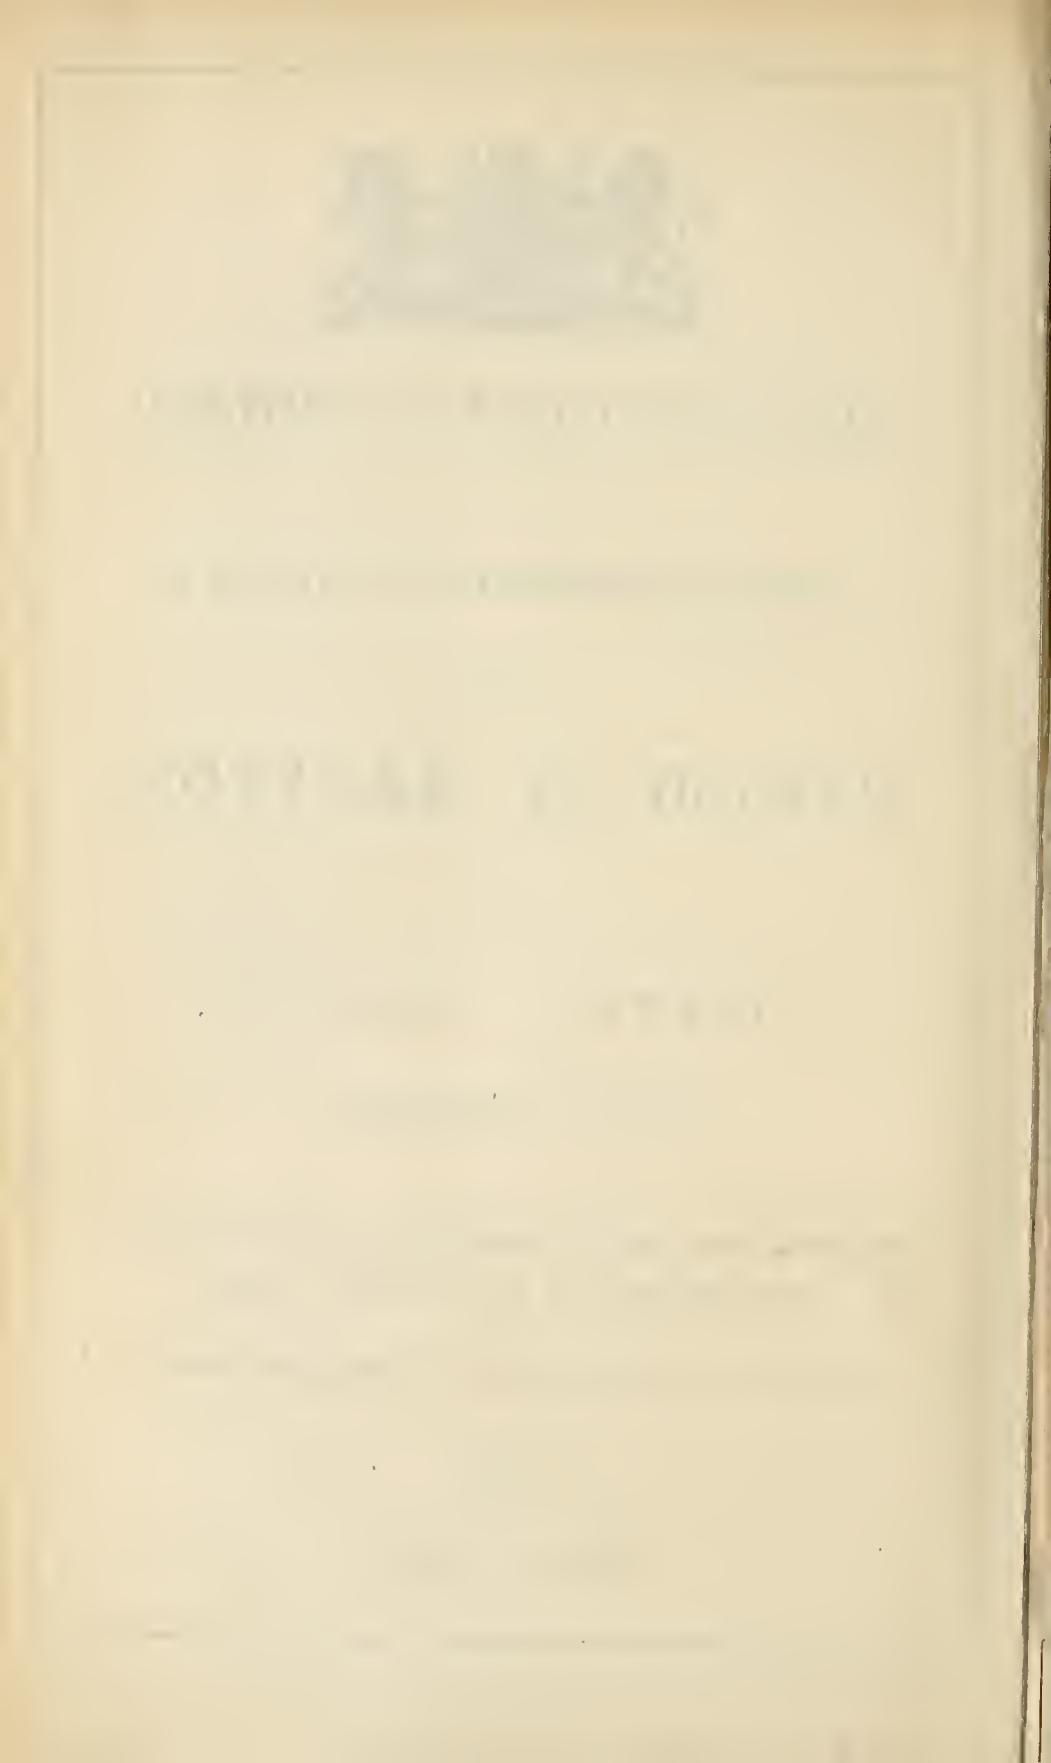

CONTAINING 3686.905 ACRES.

COLONEL SIR HENRY JAMES, R.E., F.R.S., F.G.S., &c.,
SUPERINTENDENT OF THE ORDNANCE SURVEY.

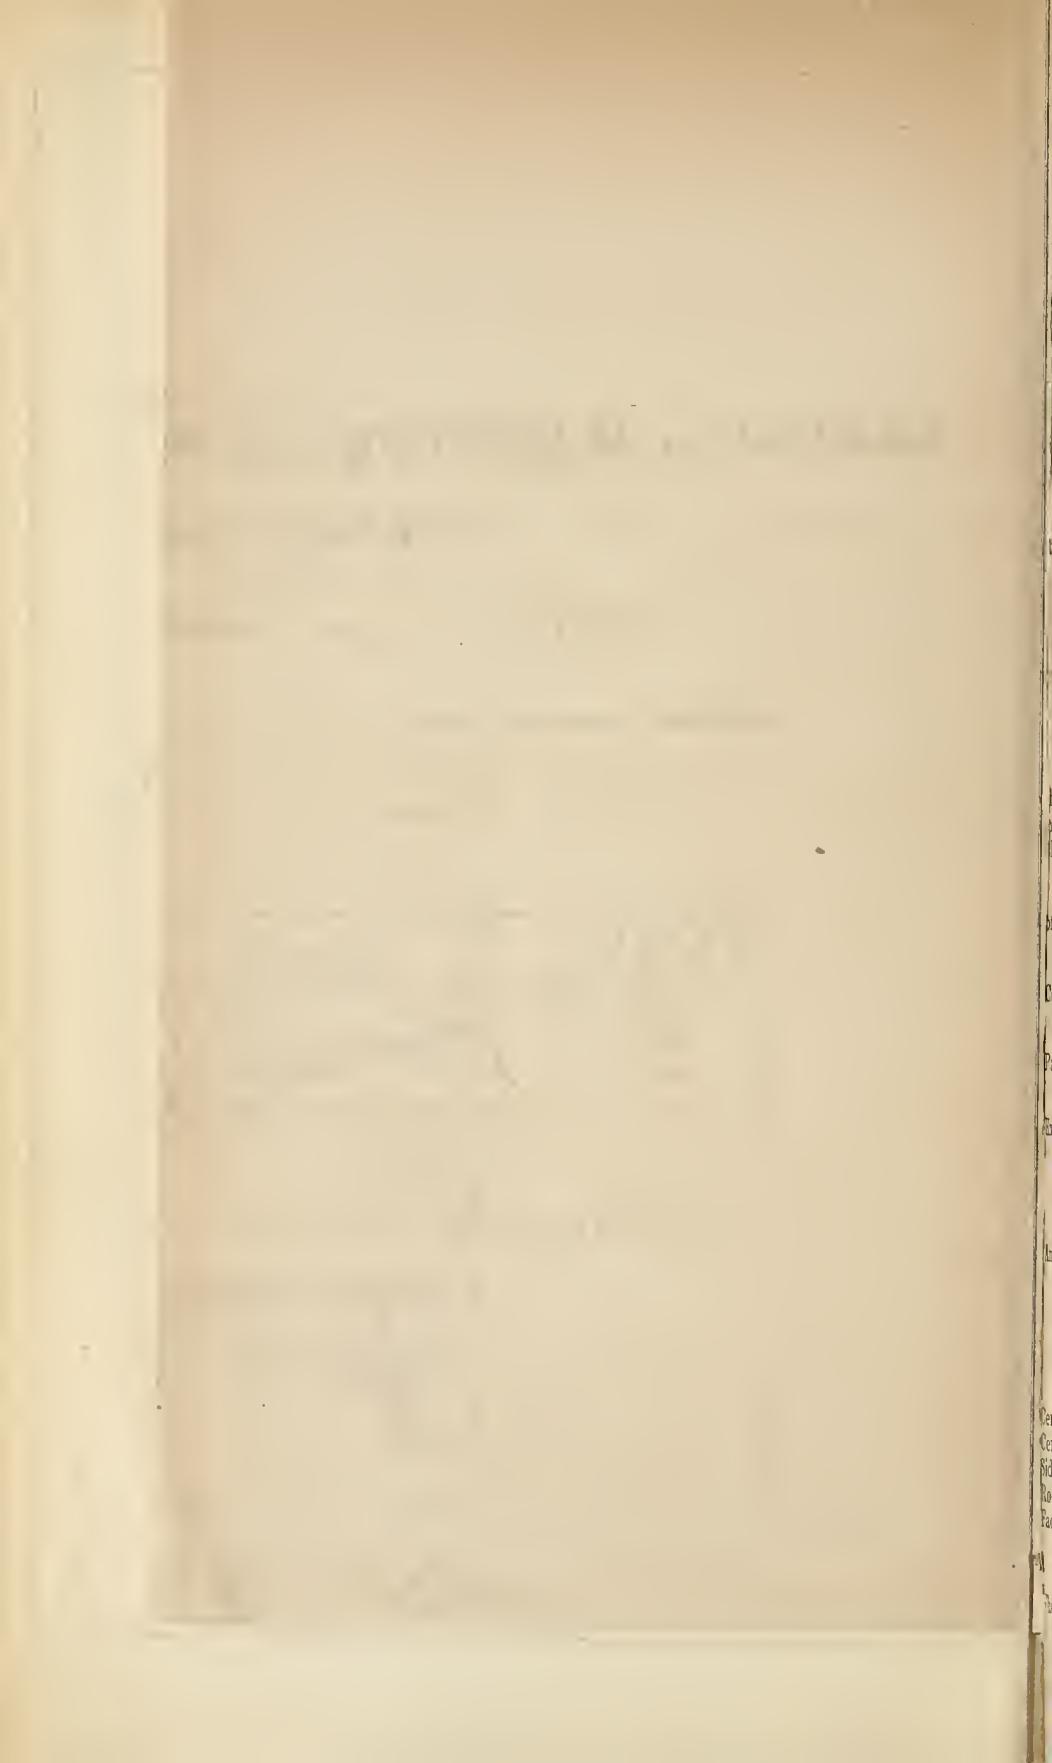

PRINTED AT THE ORDNANCE SURVEY OFFICE, SOUTHAMPTON.

1864.

Price One Shilling.

P

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [/] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500 and 6 inches to a mile:—

County Names	C	Hundreds or Wards	W
Parishes.....	P	Townships	T
Extra Parochial	E	Division of Townships	T'
Antiquities		ROMAN Druidical or Saxon Norman or Subsequent	

The descriptions of the boundaries are shown by the following initials:—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road.....	C.R.	Top of Cop	T.C.
Side of Stream or Drain ..	S.S. or S.D.	Centre of Wall.....	C.W.
Root of Hedge.....	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream	T.S.
Undefined			Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braees (/) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—
31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile:—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial.	E	Division of Townships	T
Antiquities	ROMAN Druidical or Saxon Hibernian or Subsequent		

The descriptions of the boundaries are shewn by the following initials:—

Centre of Stream	C. S.	Centre of Fenee	C. F.
Centre of Road	C. R.	Top of Cop	T. C.
Side of Stream or Drain S. S. or S. D.		Centre of Wall	C. W.
Root of Hedge	R. H.	Defaced	Def.
Fence of Wall	F. W.	Track of Stream	T. S.
Undefined			Und.

Where a change occurs in the boundaries, the symbol [o—o] is used to shew the part at which the change takes place.

INDEX TO THE SHEETS

PERTHSHIRE

PARISH OF MEICLE

ORDNANCE SURVEY OF SCOTLAND

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25.344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1.0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (ſ) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31.4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial.....	E	Division of Townships	T
Antiquities		ROMAN Druidical or Saxon Norman or Subsequent	

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ..	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream.....	T.S.
Undefined.....		Und.	

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF SCOTLAND

P ARISH OF MELDRUM

A BERDEENSHIRE

I N D E X T O T H E S H E E T S

Published on the Scale of $\frac{1}{2500}$ or 25.344 Inches to a Mile.

Scale of this Index One Inch to a Mile.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25.344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1.0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (ſ) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31.4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial.....	E	Division of Townships	T
Antiquities	ROMAN Druidical or Saxon Norman or Subsequent		

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	C.S.	Centre of Fence	C.F.
Centre of Road	C.R.	Top of Cop	T.C.
Side of Stream or Drain ...	S.S. or S.D.	Centre of Wall	C.W.
Root of Hedge	R.H.	Defaced	Def.
Face of Wall	F.W.	Track of Stream.....	T.S.
	Undefined.....	Und.	

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.
